

Application Form

1. Contact information:

1.1. Applicant's name

Registry code

Address where the Applicant is registered

1.2. Applicant's authorized representative:

name

position

e-mail

phone number

1.3. Applicant's designated competition contact:

name

position

e-mail

phone number

1.4. Applicant's website information if available

2. Title of the pilot.

3. Type of pilot (please select only one: 3.1 or 3.2)

3.1. The pilot demonstrates an existing business model of consent-based metering data exchange across country borders through a technical pilot ('hard pilots').

3.1.1. Name of software application(s) that will be interfaced with the Estfeed sandbox environment and demonstrated/tested/validated during the pilot.

3.1.2. One-sentence description(s) of the software application(s) and homepage, or other website link if available.

3.2. The pilot demonstrates a potential business model that relies on consent-based metering data exchange but, for the business model to work, it also needs changes in regulation in order to be viable ('soft pilots').

4. Describe the use case(s) to be demonstrated in the pilot.

(Please specify what the problem is? How does it relate to metering data access or no access? What is the solution? Why is it novel and innovative? What is its value for metering data access in Europe? Who are the users and how would they benefit?)

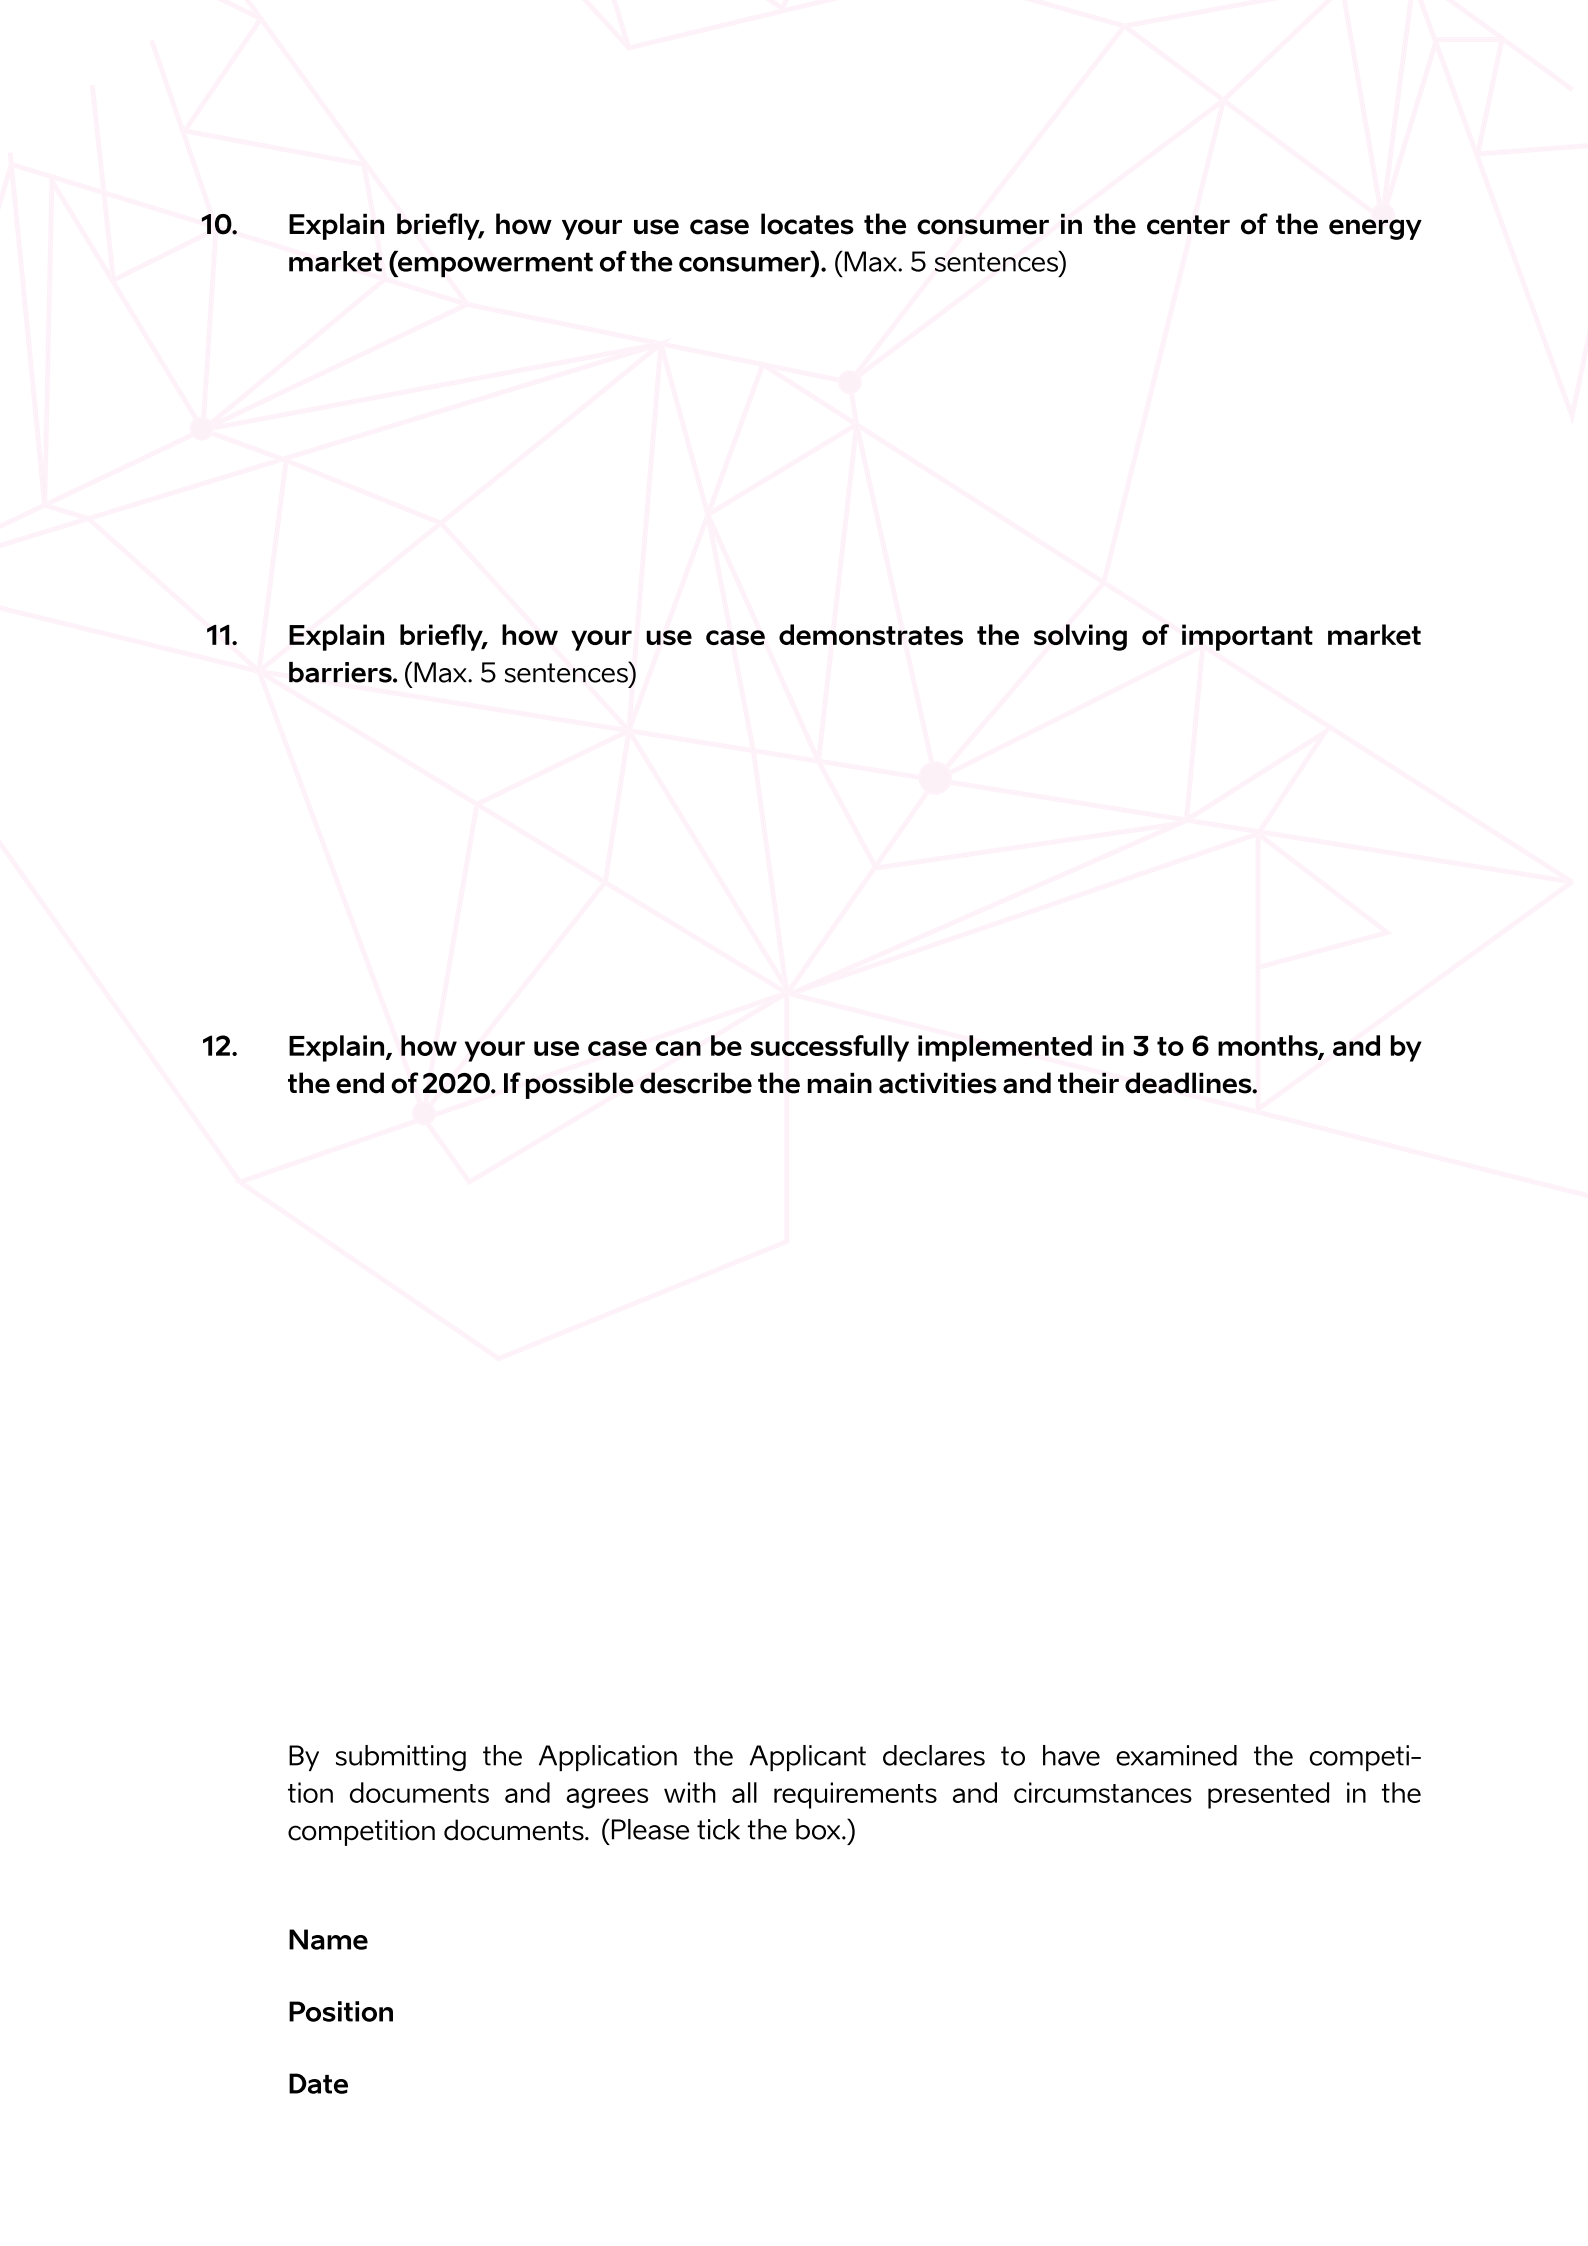

- 
5. **Which countries will the pilot cover in terms of data exchange between organizations, and services or products provided in these countries?** (please list the countries according to relevance)

 6. **Which partners will participate in the pilot?** (Please write the name of the company and the name and e-mail of the contact person. If you do not have any partners yet then name the ones you would need)

 7. **Why is the pilot relevant for these partners?**

 8. **Explain briefly, how your use case would demonstrates energy market integration.** (Max. 5 sentences)

 9. **Explain briefly, how your use case increases competition and services in the areas of flexibility, efficiency, retail or other innovative area.** (Max. 5 sentences)

- 
10. **Explain briefly, how your use case locates the consumer in the center of the energy market (empowerment of the consumer). (Max. 5 sentences)**

 11. **Explain briefly, how your use case demonstrates the solving of important market barriers. (Max. 5 sentences)**

 12. **Explain, how your use case can be successfully implemented in 3 to 6 months, and by the end of 2020. If possible describe the main activities and their deadlines.**

By submitting the Application the Applicant declares to have examined the competition documents and agrees with all requirements and circumstances presented in the competition documents. (Please tick the box.)
